Owners Comments

The current owners have lived at the property for the last twenty three years. In this time they have raised a family and now feel that it is time for a new chapter in their lives and to pass the property on to its new 'custodian'. The family have enjoyed various activities during their time at the property including running a glamping site, keeping horses, goats, chicken and geese. In their own words, the property is great for parties and we love that you can see all the stars and the Northern lights. The seasons are ever changing and it is an ideal spot to watch the vista and the snow capped mountains. The current

owners have also giving careful consideration to the environment and overall running costs of the property and have installed a state of the art biomass heating system located in the rear outbuilding together with a full solar panel installation that creates a good source of electricity all throughout the year making the house very eco-friendly and creating strong sustainability.
