The land is largely comprised of gently sloping grazing pastures with pockets of natural tree and woodland cover, providing excellent shelter and visual appeal. The holding also benefits from a separate roadside access at a lower level, making it practical and versatile for agricultural or equestrian use.

The farm is complemented by a traditional range of stone and brick outbuildings, including former shippon, stabling, loose boxes and a brick-built open cart shed with adjoining former dairy. These character buildings offer scope for continued agricultural use or potential alternative uses (subject to consent).

In addition, there is a more modern selection of agricultural buildings providing extensive housing and storage facilities. These include a range of timber/steel and corrugated barns, together with a hay barn, agricultural storage sheds with lean-to stabling, and three-bay feeding/animal housing sheds with adjoining yard area.

Collectively, the buildings provide a useful combination of traditional and modern facilities, well-suited to livestock, equestrian or general farming use.
