Externally

The farmhouse is approached via a private driveway leading from Sandon Road which curves around the rear of the property and also provides shared access to the neighbouring barn conversions.

There is an ample parking area immediately to the rear of the farmhouse by the backdoor. A small lawned area adjoins the parking area which houses the septic tank for the farmhouse. To the front of the property, a small gravel patio garden can be found with partial stone walling.

The Land

The land is split into two separate field parcels, a good sized paddock 0.88 acres (0.358 ha) adjacent to the farmhouse with a larger second paddock 2.41 acres (0.98 ha) at the rear of the farmhouse.

Access to both paddocks is via the access track to the farmhouse. Both fields have good stock proof timber post and rail fencing or mature hedgerows to the boundaries. The smaller paddock is level and is situated within the Hilderstone Conservation Area.

The larger paddock to the rear of the farmhouse is gentle undulating and benefits from its own cattle corral. Making this ideal for either horses or a small hobby farm.

Assessments First

General Information

Services:

Mains water, mains gas and mains electricity are connected to the Farmhouse. The property is heated by a gas combi boiler which has recently been installed with a guarantee. The drainage is understood to be via a private septic tank system located in the rear garden of the farmhouse. Purchasers will have to satisfy themselves as to the working order of the septic tank. We understand mains drainage is available in this part of the village. Again, purchasers will need to make their own enquires.

Tenure and Possession:

The property is sold Freehold with vacant possession.

Rights of Way, Wayleaves and Easements:

There is a right of way over the access track for the benefit of the owners of the barn conversion properties within the courtyard area of Lower Farm. It is understood there is a maintenance agreement in place for the owners of the barns and the farmhouse contribute to the upkeep of the courtyard and driveway. Further details are available on request. The Front Paddock is crossed by an Electricity line which has a Wayleave in place.
