The present owners have fully modernised the property during their ownership and created the equestrian side to the property. We understand that the site dates back to the 1100's when William the Conqueror bequeathed Monkwood to a grandson of a Norman Baron. The location being previously known as a stopping point between diocese in Sheffield and Derby.

Buildings and Facilities

The property boasts a range of buildings and facilities, each providing exciting equestrian, agricultural and conversion opportunities (stpp) for a prospective purchaser to enjoy. The traditional barn sits within the courtyard, adjoining the farmhouse, offering four loose boxes to the ground floor. The barn also offers further flexible spaces including a workshop, a log store, and storage spaces, whilst to the first floor there are further storage areas with the benefit of electricity. Aside from its current uses, the barn boasts huge potential for conversion (stpp), whether that be an extension to the farmhouse, ancillary accommodation, or for further income from a rental or holiday accommodation.

The property offers a large, three-bay steel portal frame modern building hosting seven good-sized loose boxes, a secure tack room, and a useful first-floor storage area. Adjacent to the barn, a 20m x 40m manège locates perfect for those with equestrian interests, alongside a disused horse walker.

The yard areas offer space for vehicles, lorries, and fodder storage and sufficient areas for machinery in and around the buildings, as well as offering potential space for further buildings (subject to the necessary consents).

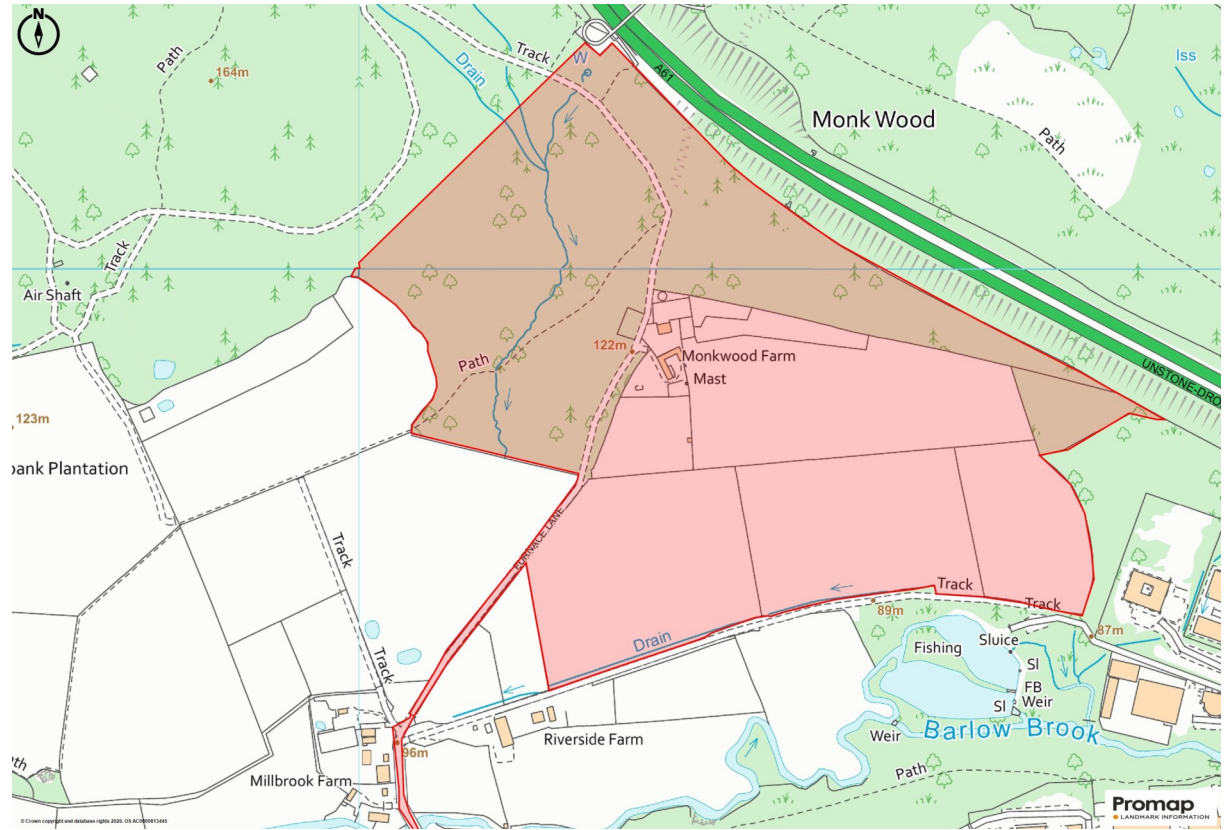

Whilst the buildings are currently utilised for equestrian enterprises, many of the them would be well suited to agricultural uses, or conversion into living accommodation or such ancillary uses. Viewing is strongly encouraged to appreciate the range of buildings and the potential the property has to offer.

Land and Woodland

The land wraps around the dwelling and buildings in a desired ring fence, divided into multiple paddocks and perfectly suited to turnout, extending to approx. 38.31 acres. The grassland is in very good heart, down to permanent pasture with all suitable for grazing and mowing, and some suitable for arable production, together with a field shelter. Access to the land is all via the driveway and yard area, bounded by hedgerows and fencing.

A large portion of woodland lays to the north of the property, offering a wide variety of mature trees and vegetation and enhances the amenity and environmental aspects of the property. The woodland extends to approx. 35.11 acres.
