# Accommodation

The traditional stone-built farmhouse has been completely stripped back internally to provide a blank canvas for redevelopment, with the original internal layout removed and the steel support structure now defined. The accommodation offers spacious living allowing creation for a family home.

The proposed plans illustrate the potential to transform the farmhouse into a spacious family home with the ground floor containing an open plan living space comprising a lounge area, a dining area, and a second seating space which is open into the breakfast kitchen, utility room, plant room and a WC. There is a further large family room with a living and dining space, and an entrance porch. There is a good sized basement which can be used for storage. To the first floor the proposed layout would include a master bedroom with a walk-in wardrobe and ensuite, three further bedrooms, one with an ensuite and family bathroom. positioned to the side is a further room, office and a shower room together with a four car garage.

Externally, the property offers large lawned garden areas measuring 0.87 acres to the front and sides bounded by hedgerows and dry-stone walls, with mature trees presenting a rural outlook providing far reaching views over adjoining countryside. The private driveway to the side of the farmhouse offers ample off-road parking for multiple vehicles.

There is a static caravan positioned on the site, which will remain on site and included within the sale. The caravan offers useable living space during the remainder of the building works.
