- 7) A six bay steel portal framed general purpose building with a further two bay lean to and a smaller one bay lean to. The building has timber cladding above and railway sleeper walling.

The yard surrounding the farmhouse and buildings lends itself to commercial use, should a purchaser wish to run a business from the premises, subject to obtaining the necessary consents. The property boasts accessibility with great road links, perfectly suited to business use.

We advise all interested parties to do their own planning research and enquiries. The property will suit those seeking a small-scale development project, or mixed-use property, with great development potential.
