Our Vendor Loves...

"I've really loved living in this flat, it is surprisingly light and airy for a lower ground floor and I love just how big it is. The neighbours in the building are all fantastic and really friendly, its like a nice little community who pull together to solve any rare issues.

The flat is in a great location for getting into central London, there are 4 different train lines within 15/20 minutes walk, plus the tram system nearby for travelling across south London and also a bus stop right outside the front door - all this makes travelling about London or commuting super easy".
