Our Vendor Loves...

This was the flat we moved into when we first got married, and it couldn't have been more perfect for us. The convenience of a two-minute walk to the train station made getting to central London effortless, while the dedicated parking space gave us peace of mind knowing the car was always close and parking was never a hassle. The South- and East-facing walls feature plenty of windows, allowing natural light to flood in throughout the day, making the flat feel bright, cheerful, and welcoming. During the colder months, the excellent insulation and central heating kept us warm and cosy, no matter the weather outside. One of the standout features for us was the fully-boarded loft. It provided ample storage space, helping us keep the flat organized and clutter-free—a rare and invaluable feature for a home of this size. This flat gave us so much joy and comfort during our time here, and we're sure it will be just as special for its next owners.
