Property Description- First Floor

A stunning galleried landing provides access to four separate bedrooms and the family bathroom and provides seamless access to the proposed master 5th bedroom. The principal bedroom is particularly generous in size and benefits from loft access and eaves storage. The family bathroom is well appointed with a roll-top bath and separate walk-in shower. Throughout the first floor, the character continues with ceiling roses, panelling, decorative corbels and coving, maintaining the home's elegant period feel.

Property- Externals

To the front of the property is a substantial crescent shingle driveway offering dual access to provide in-out together with extensive parking. The frontage is enhanced by a raised, low maintenance landscaped bark area and mature shrub borders, together with gated side access leading to the oil tank, coal bunker and rear garden pathways. The driveway also provides access to the main entrance, rear garden, and a two-bay cart lodge with useful loft storage and log storage to the rear.

The rear garden is a true highlight and would particularly appeal to keen gardeners. South-facing and beautifully landscaped, it offers a series of distinct and thoughtfully designed spaces and hand matured by the current owners. Immediately to the rear of the property is a courtyard garden featuring a built-in Italian stone BBQ with sink, providing an ideal entertaining area. This space also offers access to the boot/utility room and leads through to the wider garden, featuring a pergola, framed grape vines and leads to the rose garden with fountain and 360 degree seating.

The boot room itself is a purpose-built, fully insulated external structure currently used as a utility space, complete with white goods, butler sink and Wi-Fi connection.

Beyond this lies an expansive lawn bordered by mature planting and multiple seating areas. The garden extends into a stunning rose garden featuring over 130 varieties of roses, a glasshouse with power and lighting, and a wide range of established plants and flowers. Further areas include a productive potager that combines areas for cut flowers, fruit, vegetables and herbs, all of which flourishes in late summer, alongside additional potting and storage sheds. The grounds also benefit from multiple external, frost protected water taps, power sockets and a range of practical outbuildings including a workshop with integrated benches, a bar with all the works and additional seating spaces. A beautifully arranged shingle pathway with arch framed wisteria walkway leads through the garden, mature planting and seasonal colour throughout. At the base of the garden sits a large ornamental pond and an impressive detached lodge, both enjoying peaceful field views.
