Planning & Supporting Information.

In order to assist interested parties in making an informed decision about the planning potential of the site, the vendors have commissioned a planning advice from Knights PLC and indicative layout sketch from Piscea Design. This information can be found in the property pack, which as available on request. The summary of the Planning Advice states: "Knights consider that a well-presented planning application for housing development on this land has realistic prospects of achieving planning permission, where it sets out a robust case for the proposals as an exception to Green Belt policies and also supported by the required technical work."

Notwithstanding this, it is important that prospective purchasers ensure they have inspected the site and rely upon their own enquiries, assessments and due diligence with regards to its current and potential uses.

NB: Whilst BJB will try and supply as much information as we can about the planning status of the land / property, please be mindful that we are not planning consultants and accordingly it is important that prospective purchasers ensure they have inspected the land / property and rely upon their own enquiries, assessments and due diligence with regards to the planning status and current or potential uses. All information is supplied in good faith and BJB cannot be held liable for any errors or omissions.
