BLOCK VIEWING SAATURDAY 26th SEPTEMBER - PLEASE CALL TO BOOK YOU SLOT.

This exceptional detached home, built in 2014, has been finished to an outstanding specification throughout. The entrance hall features sleek porcelain tiled flooring which continues into the magnificent family/dining/kitchen space. This showpiece room includes a high-end Magnet kitchen with Corian worktops to the centre island and an impressively well-designed layout fitted with Neff appliances: two Slide & Hide ovens, built-in microwave, induction hob with removable magnetic control knob, dishwasher, instant boiling water tap, and aluminium bi-fold doors opening onto the rear garden.

Both the ground and first floors benefit from underfloor heating, supported by solar thermal panels for hot water and PV panels to enhance electricity efficiency. The detached garage was originally constructed with an annexe in mind and is currently arranged as a utility/gardening room and garage area with a pitched roof and PV panels—ideal for conversion to a one-bedroom annexe (STPP).

The whole property enjoys integrated surround sound throughout the house and out to the patio area, creating a superb lifestyle setting. Externally, there are electric and water supplies to both the front and rear, along with censored lighting to the driveway.

Inside, the entrance hall is truly beautiful, with a floating oak staircase and doors leading to the superb large living room and, opposite, the impressive Cinema Room. Beyond the hall lies the breathtaking dining/family/breakfast/kitchen/entertaining room—an extraordinary space that genuinely must be seen to be appreciated. There is a walk-in cloaks/storage cupboard and a door into the utility suite, where the laundry room houses the hot water tank, boiler, and underfloor heating pipework—perfect for winter drying. From here, there is access to the ground floor shower room and a further utility room fitted with units, sink, and appliance plumbing, with a door and window to the rear patio.

Taking the floating oak staircase to the first floor, you arrive at a stunning galleried landing with a picture window to the front—an ideal reading nook or small study area. The main bedroom suite offers a spacious bedroom with lovely views over the rear garden, a dual walk-in dressing room, and an en suite bathroom. The second bedroom is a generous double with an en-suite shower room and walk-in wardrobe. There are two further double bedrooms, both with built-in wardrobes. The family bathroom is exceptional, featuring a double-ended bath with headrests and a TV built into the tiled wall.

The rear garden measures around 236 ft (72 m) in length, faces south/south-westerly, and offers a large expanse of lawn, a stunning patio area with bench seating and built-in flower beds, and a slightly raised section. At the front of the property is a large gravel driveway providing off-road parking for numerous vehicles. A side gate leads to an additional driveway area offering further parking and access to the detached garage, originally built for use as a “granny annexe,” with pitched roof, solar panels, power, light, and a garden/boot room at the rear.

Energy Efficiency Rating			
	Current	Potential	
Very energy efficient - lower running costs			
(92 plus) A	84	84	
(81-91) B			
(69-80) C			
(55-68) D			
(39-54) E			
(21-38) F			
(1-20) G			
Not energy efficient - higher running costs			
England & Wales			EU Directive 2002/91/EC
